DRAWING TO A CLOSE.

Howard's Pursuit of the Indians—Land
Grabbers Who Seek to Despoil the
Indians of their Lands.

BAKER CITY, Oregon, August 10.—
The Indian excitement in this section
has abated wonderfully since the sur-
render of the Putes began. The query
now on every tongue is, "What will
be done with the prisoners?" Popular
belief says that they will be taken to
the Indian Nation. The surrender
is progressing nicely, but is not yet
complete, on account of the fact that
prisoners come in by ones and twos.

They are thus far a sorry-looking set,
their pinched faces, almost naked
bodies and worn-out horses affording
striking evidence of the unceasing pur-
suit by General Howard's troops after
the trail was struck. In fact the In-
dians say the troops were so close
upon them for many days that the In-
dians were not given time to camp,
cook or hunt, and their ammunition
having become exhausted, and their
horses worn out, they were compelled
to break up into small parties, hiding
in the mountains, hoping that all the
troops would follow the Bannocks,
and leave this country open for the
Putes to re-occupy their worn out forces.

On finding that General Howard was
determined to provide for Snakes as
well as Bannocks, and having lost
their leaders, they lost all hope, and
concluded to surrender. One old fel-
low came in yesterday mounted on a
colt scarcely a year old. But few are
armed, and they with old-style fire
arms, conspicuous among the lot being
an old Hudson Bay rifle. The prison-
ers say the hostile losses have been
very heavy, and that but for the al-
most impassable nature of the country
through which they have traveled,
preventing the possibility of their be-
ing surrounded and forced to fight,
they would have been whipped long
ago. The only remaining hostile chief,
Oils, with about 50 followers, is hunt-
ing deer in the vicinity of Ironsides
mountain, waiting to learn the nature
of the reception given members of his
band who have already surrendered,
before doing so himself. Considerable
uneasiness is felt among the best citi-
zens in this country concerning affairs
at Umatilla Agency, there being a
class of people in that vicinity who
covet the Indians' land, and seem de-
termined to have those Indians break
out, and thereby forfeit their reserva-
tion, let the price, paid in the lives of
innocent, defenceless settlers be what
it may. One would naturally think
that such a class would be driven out
of the country, or, at least, compelled
to drop their infamous land-grabbing
scheme by that powerful lever, the
press; but one ceases to be surprised
at anything when the publishers of
some of our frontier sheets do not stop
on account of some imaginary per-
sonal grievance, to publish the most
unfounded falsehoods against Gen-
eral Howard, who has considered
neither personal comfort nor health
during this whole campaign, but has
organized and carried out under his
personal observation one of the most
unceasing and tireless pursuits ever
put upon record, moving army and
wagon trains through a country that
would be pronounced impassable by
any person unacquainted with the
events of this campaign.

Minor Planets Discovered.

Another of the minor planets dis-
covered by Professor Peters at Clinton,
New York, brings up their whole num-
ber to 188, nine of which have been
found since the beginning of the year.
And sixteen during the last eleven
months. Numbers 173, 177 and 178
have been named Ino, Irma and Bel-
ana, while three of last year's planets
are still without names. Of the nine
planets found since the beginning of
the present year, No. 180 discovered
by Perrotin at Toulouse on January
29, has received the name Garumna;
No. 181, discovered Cottenot at mar-
seilles on February 2, the name Eucha-
ris. Of the three planets, Nos. 182,
183 and 184, found by Palisa at Pola
in February, only the last has yet a
name Dejepeja.

EDITORIAL NOTES.

Mike McGowen, the man-eater, is a versatile cannibal. He now turns up in the furniture business. His stock in trade consists of three quilts which he stole from the county jail when released from a short imprisonment at Tuscarora. Mike is a rustler, in fact a rising young cannibal.

The Times-Review thinks the Enterprise is right in condemning the practice of appointing delegates. This pernicious precedent is too great a temptation to the wily wire-puller, and it is time he was taught that to delegate certain powers is not to waive the right of veto. The journal quoted thinks that Mr. Daggett has a fine opportunity to make himself acceptable to the people by squelching this practice.

Edison, the great inventor, believes that he can construct an apparatus by means of which the presence and approximate size of an ore body can be predicted before it has been reached. Mr. Edison has now patented a principle which may enable him to foretell dividends. Has he any scheme for the prediction of assessments? In the name of the people we ask it.

The newspapers are very much enraged at Kearney's prominence, and Kearney is very much disgusted at the short-sighted newspapers. They abused him and the people read it. Out of persecution he has made a name, and now the newspaper is obliged to chronicle his doings because the people want to read of him. He was at first called "a dirty black-guard," he has now blossomed into "the great drayman." Sic transit dec.

Representative Blackburn says that Thurman will be elected President in 1880. He says the Democrats will carry twenty-three States and obtain control of both houses of Congress.

Representative Blackburn is a very sanguine man, also fanciful. There is nutriment, however, in the thought that R. B. knows nothing at all about it. Realizing how soon he may be retired this gentleman is only too willing to express his opinions while a public man.

Hon. John H. Kinkead, a Republican candidate for gubernatorial honors, is in Reno once more, on business connected with his mining operations in Humboldt county. In connection with the political aspect we might say that although Mr. Kinkead makes very little noise, there is no reason to think him out of the fight. It may readily happen that Humboldt will furnish the next standard bearer, although we are assured that Mr. Kinkead does not consider the office necessary to ensure him good health.

Ben. Butler, the man who throws bricks, (many of which return with violent effect upon his own political head) has recently declared himself at a public meeting. Butler said he came not to make a speech but to commune with the people on the public interests of the day. He had left the old parties. He belonged to the Democratic party until it attempted to destroy the Union, and he was with the Republican party till it deserted its founders, the laboring men. Capitalists now hold the Republican party bound hand and foot. Hayes has violated every pledge and betrayed the negro of the South. The effort of Grant's administration to strengthen the public credit was a swindle. He reviewed the history of greenback currency, and claimed it should be made legal tender for all debts, public and private.

A number of candidates for county offices are at present quite industrious in saying that announcements in newspapers are of no avail. They are still active in pressing their claims and think to take advantage of those already announced, by being a candidate or not as occasion may suggest. The people, however, will want to know why these men are afraid to come before the public in the regular way. Some there are, of course, who have not yet decided as to their own candor, but there are also many who are

not sufficiently strong to trust themselves in an open way to the people. These might as well give up the idea of reserved seats and move to the back part of the hall. There is one way to appear and that is good enough even for those who have a sure thing on the election.

There is very general objection throughout the State at the presumption of the Nye and Lincoln committees in appointing delegates. The people are correct in believing that one of their rights has been usurped.

The White Pine Republican central committee, which was expected to appoint delegates, has set a day for primaries instead. A just and wise conclusion. An eastern cotem believes the county will go for Daggett.

The Crawford plan will probably be tried in Storey. It seems to us that every candidate should be consulted in this matter, and also that the matter is just as likely to be "fixed" with the Crawford theory on deck as otherwise.

CONDENSED TELEGRAMS.

At Cincinnati, at a Democratic Primary, Harmon Bisark and N. Devola, delegates, became involved in a quarrel. The latter struck the former on the temple with his fist, killing him instantly.

At Bridgeport, Conn., Herbert and Edward Beers, aged twenty-nine and twenty-one, were drowned while bathing.

Calhoun Wood, son of Fernando Wood, is bankrupt. Liabilities, \$39,000; assets small. His debts are mostly owing to livery stables, boarding-houses, hotels, etc.

Butler spoke at Biddeford, Me., on Friday evening. He said he had left the old parties. He belonged to the Democratic party until it attempted to destroy the Union. He was with the Republican till it deserted its founders, the laboring men. Capitalists now hold the Republican party bound hand and foot.

The Columbia crew arrived at New York, from England, last Saturday, and were handsomely received.

It is reported that the negotiations at Kissengen between the Papal Nuncio and Prince Bismarck were undertaken with the advice and assistance of Cardinal Nina.

It is said there is a strong reason for believing that the English government intends to gain a footing on the main land of Asia Minor.

The Sultan has telegraphed to Queen Victoria, asking British mediation to stay the advance of the Austrian army of occupation at Banjuluka. It is said the British government declines to interfere.

The Franco-American Commercial Conference, after considerable discussion, adopted a project for the commercial treaty. It proposes the abolition of the French prohibitive laws and the reduction of French and American duties thirty to fifty per cent. The greatest reduction is upon wines and silks, the tariff upon which is recommended to be arranged on a sliding scale for three years. The adoption of the project was agreed to with loud applause.

A special dispatch from Batoum says that the population are armed and are preparing to resist occupation by the Russians. They held a council and the Chevill frontiers are said to number 12,000. The excitement is intense. The Turkish regular army remain neutral.

At the Heidelberg Conference several of the south German States declared that they were unable to continue at the present rate toward the expenditures for military purposes.

Chinatown, at Boise City, was burned to the ground on the night of the 7th instant.

The coroner's jury in the case of the tramp killed by Morris, brakeman of the Western Pacific train Friday, August 9th, while attempting to board the train at Stockton, found a verdict of justifiable homicide. Morris was taken before the police judge and discharged, in absence of any complaint.

The condition of ex-Queen Christina of Spain is regarded as almost hopeless.

A Berlin dispatch says: The deficit in the Prussian budget for 1877 reaches twenty million marks. This is exclusive of Russia's share of the German Federal deficit. Several minor German States, also, have deficits.

By the explosion of the boiler in the saw mill of J. Gross, at Shumokin Dam, Pa., the proprietor, Charles Elliott the Engineer, and Charles Freymer, a boy were instantly killed, and Wess Freymeyer, Isaac Fedler and another man were probably fatally injured.

Ignorance in India.
The India Office statistics show that at present a hundred million women in India are sunk in absolute ignorance, being unable to read a syllable of their mother tongue, and untaught as to the simplest rules of health and life, the laws of God or scientific truths; in fact, a feeling exists in most Hindoo families that the girl who has learned to read and write has committed a sin, sure to bring down judgment upon her and her husband.

SIMMOND'S NABOB WHISKY.

A GREAT REMEDY.

SIMMOND'S NABOB WHISKY.
— FOR —
Indigestion, Dyspepsia and Nervousness.

The Purest and Best

— FOR ALL —

Medicinal and Family Purposes.

HAS BEEN SOLD IN ALL THE EASTERN STATES AND GIVEN UNIVERSAL satisfaction. It is highly recommended by the Faculty for all cases of Nervousness, Weakness, Debility, Dyspepsia, Indigestion, etc.
It is now introduced to the public of the Pacific Slope, endorsed by certificates of the eminent DR. J. HAYES, State Assayer of Massachusetts, and DR. H. C. LOUDERBACK of St. Louis, Mo., both gentlemen prominent in their profession, and which is a guaranty to all buyers of its purity and quality.
I can show thousands of letters from private persons, from all parts of the Union and Canada, testifying to its merits and the benefit it has afforded, as a family remedy and tonic.
Dyspepsia is called the national disease of this country, and many reasons why have been given. It is frequently said that people work too much, eat too fast, sleep too little, tax the powers of nerve and brain too incessantly, drink too much ice water, eat too much hot bread, smoke too much tobacco, give way to too much excitement and consequently play themselves out in the shortest possible time. "A short life and a merry one" seems to be the sentiment that chiefly influences a large number of persons, but for all that no person feels at ease when suffering in health. Now, however, much or little truth should be attached to the opinion of physicians who charge the great prevalence of dyspepsia and nervousness to any of the causes mentioned, it cannot be denied that there are some applications received by druggists throughout the country for medicines to relieve and cure stomach and nervous pains and disorders, and all other maladies that afflict frail humanity. As might be expected under the circumstances, a large number of specifics to successfully counteract these diseases have been introduced to the attention of the public, but nearly all of them have failed to do any good. Whenever, therefore, any alleged new remedial agent is spoken of, very little confidence is felt in it by reason of numerous past disappointments, so that people who are chronic sufferers from dyspepsia, indigestion, physical weakness, or nervousness almost despair of being cured. They, however, take too despondent a view of the matter, for those who have used the celebrated NABOB WHISKY, which can be had from all respectable druggists and grocers, know by experience that it is a sure remedy for all the maladies referred to, and that its tonic properties are of the most strengthening character. Many persons who found it impossible to properly digest a single meal, and whose physique had been sadly attenuated, have derived immediate benefit from the NABOB WHISKY, and in a short time, by its regular use, regained all their health and strength. It can be taken with impunity, as no drugs are incorporated with it, and its healthy action on the human system is at once felt. The effect which it produces on the organs of the stomach is such as to create a vigorous appetite and render digestion easy, no matter what the habits of the sufferer may be, and at the same time steadies the nerves and stimulates the brain. There are no fictitious claims for the great remedial agent, so that all persons who are troubled with dyspepsia or nervousness would be false to themselves if they failed to test its curative qualities. Its sale is rapidly on the increase, and the better it is known the more it is used.

DIED.

BLAKELY. In Reno, August 10, 1878, Mrs. Margaret Blakely, aged 39 years, a native of Wisconsin.

Granite Monument.

In the alley between the GAZETTE office and the Golden Eagle hotel, for several months past at odd days and hours, a granite monument, erstwhile described in these columns, has been growing into proportion under the industrious hands of genial John Courtney. Although it has not yet received the finishing touches, the monument is in place and presents a tasty and imposing appearance. It is some eleven or twelve feet in height, well balanced and proportioned. The stone of which it is made was obtained from a quarry near town, and is sufficiently handsome and durable, we think, to perpetuate the name of a printer, Governor, Senator, or in fact, any other ordinary mortal. Those in want of an article of the kind should give this monument an inspection.

To Carson for Life.

Sheriff Sias, of Eureka, passed through to Carson this morning, having in charge Mr. Alf. Chartz, one of the publishers of the Eureka Republican, who shot and killed a railroad conductor named Ricker about two months ago for addressing a grossly insulting letter to him and repeating the insult to his face. The jury found a verdict against Mr. Chartz of murder in the second degree, and Cole, the Eureka District Judge, imposed the full penalty. Both verdict and sentence are considered somewhat remarkable. Mr. Chartz's wife, to whom he has been married little more than a year, gave birth to a child on Saturday evening. He was sentenced on the same afternoon.

An Infamous Libel.

We would not be as mad as the editor of the Reno GAZETTE is for the flag-staff on Mount Davidson—which, by the way, he tried to purchase for a scarf-pin and all because he was not paid for his services as a jurymen in the Ricard case. Maybe he wasn't worth it.—Virginia Footlight.

Too Much Attention.

The wary tramp avoids Reno just now. He will walk twenty miles out of his way to avoid this pretty town. Citizens with shot guns form a reception committee of a kind that the luxurious wayfarer man doesn't hanker after.

Where's Bob Morrison?

Anyone knowing the whereabouts of R. H. Morrison, who formerly worked for J. L. McFarlin, the blacksmith, will confer a favor by communicating with Henry Morrison, Greenville, Plumas county, California.

Masonic.

We call the attention of our Masonic readers to the lecture which is to be delivered to-morrow evening at Masonic Hall, by M. Andre Massena. This interesting gentleman is over sixty years of age, a political exile from his native country, France, in needy circumstances and nearly blind. But though friendless and impoverished, his career has been among great men and in heroic time.

He is the son of Andre Massena, Baron de Camin, Duc de Rivoli, Prince of Esling, the first Marshal of France under Napoleon, from 1804 till his death in 1817, four months prior to the birth of the son. His father was, as most of our readers know, one of the ablest commanders under Napoleon. This gentleman who is here, has had an active life that would not be imagined by a look at his withered form and wornout appearance generally. He served in the French army in Africa, under Garibaldi, and while with the latter commanded several thousand men. As the son of a Marshal of Napoleon's empire, he was sent by Louis Philippe in 1840 to receive the ashes of Napoleon at St. Helena and convey them to France. M. Massena supports himself by delivering lectures on Freemasonry, and during his stay in this city will lecture to the members of that order in Masonic Hall, Tuesday evening August 13th is the first date which has been arranged.

The Pavilion Site.

There will be a meeting of citizens at the opera house to-morrow evening at 8 o'clock to receive the report of the committee appointed on Friday evening last to select a site for the proposed fair pavilion. The committee, we understand, have purchased from D. H. Haskell the northwest corner of the burnt district in Chinatown, subject to the approval of the meeting. The ground solicited has a frontage of 140 feet on First st. and 80 feet on Center. Mr. Lake and the Gas company will purchase three lots, leaving the expense to the pavilion contributors at about \$1000. This purchase, if ratified, will do much to solve the problem of the location of Chinatown.

A Fire in Gold Hill.

Friday night about 11 o'clock a coal-oil lamp exploded in the house of James Andicott, just south of the Homestead house, in Gold Hill. The flames communicated with the furniture very rapidly, and Mr. Andicott was severely burned about the breast and arms in endeavoring to put the fire out. The heat finally drove out the occupants of the house, which was then burned in a few minutes, and an adjoining house was considerably damaged. The lamp which occasioned the explosion was one of the old-fashioned kind, without a valve in the burner to allow the gas to escape. The loss on the two houses was about \$1,000.

Narrow Escape.

The Carson Appeal of Sunday has this to say of a Verdian's narrow escape: Jack Foulke, of Verdi, like to have lost the number of his mess yesterday. He was so standing that when a train which was moving at, through, or out of an open switch, in some irregular or eccentric manner at Reno, it came within an ace of running right over him. Of course, if he had got in the way of the wheels it would have been good-bye, Jack Foulke! As it was, he hung on the standing rigging of the hind step, like grim death to a bankrupt stock gambler. So we learn from conductor Hobart.

Workingmen's Meeting.

The Workingmen's party held a meeting at the opera house on Saturday evening. Brown, the President of the organization, presided. A number of speeches were made and a resolution condemning a resort to violence to accomplish any of the ends at which the party aims was adopted. S. F. Hoole, recently fired out of the labor family, was taken back again and made a speech endorsing Kearney and abusing the press. A slight rumble between two of the audience made things interesting and enjoyable for a few minutes and then the meeting adjourned.

Heavy Stock Transactions.

Deputy Sheriff Jones this afternoon organized a stock board all by himself an Virginia street and requested the assembled sharps to bid on 5400 shares of Crown Prince. The stock belonged to Z. L. King and was offered for sale on a judgment. After shouting for fifteen or twenty minutes, the Deputy succeeded in knocking down the valuable security at three cents per share.

For Sheriff.

John W. Boynton, a sterling Republican, announces himself as a candidate for the office of Sheriff. Mr. Boynton is an old citizen, identified with the agricultural interest and is well known and respected in this community. He has never before sought office, and is eminently well fitted for the position to which he aspires.

The funeral of Mrs. Blakeley yesterday was largely attended by friends of the deceased lady. The ceremonies at the Congregational Church were deeply impressive.

JOTTINGS.

—Hon. John H. Kinkead is in Reno.

—The roads leading into town are uncomfortably dusty.

—Sagebrush fires in the vicinity of Glendale reddened the sky these nights.

—The Caledonian picnic on Saturday was well attended. There was lots of fun.

—Although the days are unendurably hot, the nights are cool and very beautiful.

—We're willing to bet a cold bath that Reno has hotter weather and more of it than any town in the State.

—Some of the more advanced Plutes are going in for moustaches. The result is frightful to look upon.

—Chinatown is as bare and black as it was last Sunday morning. None of the heathens dare to begin rebuilding.

—The Cherry Creek Independent says in effect that James C. Hagerman of Reno started the Daily Record. We do not believe it.

—The performance of the Taylor family at the Academy of Music last evening was fairly attended and thoroughly enjoyed.

—Last evening's overland train took East Mrs. C. C. Powning and Mrs. Irwin Ayres. The ladies will be absent several months.

—The eastward-bound emigrant cars are pretty well filled with returning gold hunters who have had their argenteiferous dreams effectually dissipated and who also found pork and beans almost as hard to get as nuggets in California.

—Brother Loughborough, familiarly known as the two-horned beast, continues to hold his Second Advent meetings in his neat white tent. It is probable that a sufficient number of converts will be made to justify the formation of a church of the sect in Reno.

—There is a large number of camping parties making things lively at Webber and Independence lakes. There are lots of trout, but it is hard to capture them. Game is not very plentiful, but the folks are having more than enough fun.

—W. F. Edwards and wife, Misses Kate and May Benham and L. S. Burdard, who have been enjoying a week's camping excursion to the lakes are on their way home and will probably arrive this evening.

—The rounders who erstwhile infested the street corners late at night are seen no more. The "toughs" are lying low until this excitement has blown over. The excitement, so far as these fellows are concerned, should be kept up permanently.

—John Kelly, the well known violinist, called at the GAZETTE office accompanied by his charming and talented wife. Mr. Kelly leaves this afternoon for Virginia City, where he will give a performance and on his return may be induced to favor Reno.

"Allee Same."

In these times of rampant rioters and complaining Chinamen, the least incident tending to show feeling upon either side is interesting. The Enterprise tells what John thinks of his betters in repeating that a big team loaded with wood while turning from a cross street into Main street, Lower Gold Hill, ran into the wash-house of Sung Lee. There was a terrible crash; part of the corner of the building came out, about a cord of wood tumbled down, and Sung Lee, with his smoothing-iron in his hand, sallied forth in all the majesty of his wrath. "What matter you," cried the indignant Celestial, who appeared to look upon the accident as a personal insult. "What for you all time d—n fooler? You sabie jackass? Him jackass you all same blunder!"

Very Likely Fatal.

Several accidents, all save one of little consequence, happened some of the Caledonian pioneers on Saturday. The severest one is thus described by the Virginia Enterprise:

As the excursion train was nearing the picnic grounds at Dall's ranch, three men who were in a light wagon were seen coming toward Franktown, driving their team at a gallop. In making a short turn when within about a quarter of a mile of Franktown one of the men, Serelen Gosselin, was thrown from the wagon. It is thought that a wheel passed over him, as when he was taken up from the ground his left arm was found to be broken between the left shoulder and elbow, his lower jaw was broken on the right side and he was thought to be badly injured in the head, as blood oozed from his ears. He was in an insensible condition when taken from the ground. He was taken to a hotel in Franktown, where he received every possible attention. At 6 o'clock last evening, when the excursion train left, the man was still unconscious and the physicians in attendance were of the opinion that he would not live more than two hours. He is a French Canadian, from this city, and has been working at the Belcher mine.

Not So Bad as Reported.

Mr. McCormish, of Glendale, whose daughter and her children, on their way hither from Scotland, were hurt in the Ohio railroad disaster the other day, has received dispatches stating that they are not so severely injured as was at first supposed.

SPECIAL NOTICES.

Don't Forget It.

If you are troubled with nervousness, are disheartened, tired of life, fear death or feel out of sorts, as the saying is, you may safely conclude that you have the Dypepsia or Liver Complaint. The liver is very apt to become torpid at this season of the year, as poisons arising from marshes, stagnant water are more numerous, and are, through inhalation, taken into the blood. Unless the liver is strong and active, and furnishes a supply of fresh and pure blood to drive out the impurities, the above mentioned symptoms surely follow, and if not heeded, end in more terrible diseases and death. White's Prairie Flower proves itself the great liver panacea. Its action on the liver is different from any medicine ever compounded. Its cures are truly wonderful. Try it. Price, twenty-five cents and seventy-five cents. For sale by our druggists, OSMON & SUGENAKER. aut eod

MISCELLANEOUS. FELLOWS' Compound Syrup! OF HYPOPHOSPHITES. THIS DISCOVERY Is the result of a series of Scientific Experiments based upon the theory that "for the successful cure of Wasting Diseases, the nervous system must be made vigorous and healthy." One of the first symptoms of disease affecting either the Liver, Lungs, Heart, Stomach, or Genital Organs, is a loss of nervous power. This is followed by muscular relaxation, weakness, and emaciation of all the organs which depend upon them for health or involuntary muscular action, the weaker suffering first. The inventor, acting upon this idea, that the muscles and nerves depend upon each other for efficient strength and action, and that they must be treated directly in order to speedily and permanently cure diseases of the organs which they control, became convinced, after months of experiment, that no other preparation produced such potent and direct effects upon the nervous system as his Compound Syrup of Hypophosphites and except in cases of actual organic loss, that it would restore patients suffering from those maladies. Amongst the diseases overcome by the use of this remedy are the following:— Chronic Constipation, Chronic Dyspepsia, Asthma, Chronic Bronchitis, Consumption, Chronic Diarrhoea, Chronic Laryngitis, Melancholy, Nervous Debility, Debility, resulting from Typhoid and other low fevers, Diptheritic Prostration, Hysteria, Hypochondria, Nervous Excitability, Marasmus or Wasting of the Muscles, Aphonia or Loss of Voice, Sluggishness of the Liver, Interrupted and Feeble Action of the Heart, Stupor, and Feelings caused by mucous obstruction of the Lungs and Air Passages leading thereto, and Debility from various causes. Indigestion and habitual Costiveness almost always arise from weakness of the muscles and nerves of the stomach and bowels. In such cases, Fellows' Compound Syrup of Hypophosphites has proved itself of the greatest service by inducing healthy peristaltic action of the intestines. The evacuations soon become copious and healthy, without producing the effect of purgative medicine. Weakness of the Joints and Muscles, IMPURITY OF THE BLOOD, and INWARD WASTING may be cured by attention to the regular described doses, and by due regard to the habits of life. FELLOWS' Compound Syrup of Hypophosphites The power of arresting diseases displayed by this preparation is honorably acknowledged by the medical faculty in every section where it has been introduced, and the large sale is the best guarantee of the estimation in which it is held by the public. This syrup will cure PULMONARY CONSUMPTION in the first and second stages, will give great relief and prolong life in the third. It will cure ASTHMA, BRONCHITIS, LARYNGITIS and COUGHS. It will cure all diseases originating from want of MUSCULAR ACTION and NERVOUS FORCE. Sold by all Druggists. Price \$1.50 per bottle or six bottles for \$7.50 OSEURN & SHOEMAKER, 6-12-1y d & w. Agents for Reno. CONSUMPTION Positively Cured. All sufferers from this disease that are anxious to be cured should try Dr. KISSNER'S Celebrated Consumptive Powders. These Powders are the only preparation known that will cure Consumption and all diseases of the Throat and Lungs—indeed, so strong is our faith in them, and also to convince you that they are no humbug, we will forward to every sufferer, by mail, post paid, a free Trial Box.
